

# IHE Bachelor Performance Report

## Catawba College

2010 - 2011

---

### Overview of the Institution

Established in 1851, Catawba College is a small liberal arts institution affiliated with the United Church of Christ. The College is located in the southern piedmont region of North Carolina. Undergraduate education is the primary focus of the college, with majors in the arts and sciences, as well as some specialized fields. In addition, Catawba College operates a small graduate program that serves local educators in Elementary Education. Utilizing the skills of more than 107 full- and part-time faculty, Catawba College provides instruction to approximately 1250 students representing 31 states and 11 foreign countries.

### Special Characteristics

Catawba College has a long history of public service, first opening its doors in Newton in 1851 and in Salisbury since 1925. Approximately 20% of the student body arrives from outside of North Carolina. The College offers 16 licensure programs, all rooted in the conceptual framework Teacher as Reflective Practitioner. The framework is aligned with the North Carolina Professional Teaching Standards and the National Board for Professional Teaching Standards (NBPTS). Reflection permeates all of the teacher education programs, with portfolios providing substantial evidence for candidate performance. The teacher education programs are small, and the College prides itself on its ability to provide individual attention and support to all of its students. There is a highly structured, tightly sequenced set of experiences that blend theory, methods, and classroom practice and which allows for a cohesiveness that is one of the most unique features of the undergraduate teacher education programs at the College. The master's degree program in elementary education provides a continuum of professional growth as it prepares practicing teachers as reflective practitioners. The graduate program builds upon the essential content knowledge and professional knowledge and skills gained through undergraduate studies and through classroom teaching experiences. The M.Ed. in Elementary Education program was restructured in 2009-2010 to more closely align with the North Carolina Professional Teaching standards as well as to extend the five propositions of the National Board for Professional Teaching Standards (NBPTS). Based on these standards and guidelines, the M.Ed. program strives to help experienced teachers 1) examine their own practices, 2) systematically raise and pursue questions, and 3) collaborate with others beyond their own

classrooms. In order to better provide for continuous program improvement, teacher education faculty follow the Catawba College Teacher Education Unit Assessment System. This system incorporates a variety of quantitative and qualitative assessments, including evaluations developed in collaboration with public school partners. The Shirley Ritchie Academy for Teaching provides professional development opportunities for area educators and prospective teachers. The Academy also operates the Martha West Scholarships, which provides scholarships of up to \$15,000 per year for prospective teachers. Accredited by the Commission on Colleges of the Southern Association of Colleges and Schools, Catawba College offers teacher education programs accredited by the National Council for Accreditation of Teacher Education and approved by the North Carolina State Board of Education.

### **Program Areas and Levels Offered**

Catawba College offers 16 undergraduate licensure programs and one graduate licensure program in Elementary Education. Approved undergraduate programs include Elementary Education (K-6), Middle School Education (6-9, with concentrations in Language Arts, Mathematics, Science, and Social Studies), Secondary Education (9-12 in English, Mathematics, Comprehensive Social Studies, Comprehensive Science, Biology, and Chemistry), and Special Subject Areas (K-12 in Health/Physical Education, Music, and Theatre Education). The first cohort to the Theatre Education program was admitted in fall 2010. A second field license program in Reading Education is also offered. A Birth-Kindergarten program operates through an evening program, and is offered as a 2+2 program in cooperation with area community colleges. Graduate study leading to a Master's Degree is available in Elementary Education (K-6).

## **I. SCHOOL/COLLEGE/DEPARTMENT OF EDUCATION (SCDE) INITIATIVES**

### **A. Direct and Ongoing Involvement with/and Service to the Public Schools**

<b>LEAs/Schools with whom the Institution Has Formal Collaborative Plans</b>	<b>Priorities Identified in Collaboration with LEAs/Schools</b>	<b>Activities and/or Programs Implemented to Address the Priorities</b>	<b>Start and End Dates</b>	<b>Number of Participants</b>	<b>Summary of the Outcome of the Activities and/or Programs</b>

Exit evaluation forms completed and returned by classroom teachers indicate satisfaction with the students' involvement</p>

<p>Overton Elementary School (Rowan-Salisbury Schools)</p>	<p>Goals: 1. To improve the quality of a teacher preparation program through rigorous entry and program standards and a relevant array of “real world” application experiences. Rationale: A well sequenced set of professional development activities will better prepare prospective teachers for work in RSS schools. 2. To develop teacher leaders who will strengthen the profession of teaching as they progress from the initial stages of preparation and throughout their career. Rationale: Leadership is one of the new NC Professional Teaching Standards 3. To close the gap between</p>	<p>1. Pre-service teachers enrolled in Elementary Methods I and II engaged in a year-long junior internship at Overton Elementary. Experiences included-  • Participation in a reading clinic and conducting reading diagnoses and remediation for Overton students (Goals 1,3,5,6) Fall 2010  • Organization of a science day event for students in K-2nd grade (Goal 3) Fall 2010  2. Seminars for junior interns were conducted by the COPE Director (an Overton teacher). This person receives a stipend for her services and serves on the Teacher Education Council along with the Overton principal. (Goals 2, 4)  3. A COPE Advisory Council consisting of college and school faculty oversees program governance. (Goal 2)  5. Free graduate tuition available for mentor teachers.  6. One hundred percent of full time fall Teacher Education faculty participated, including planning with Overton faculty. (Goal 4)  (Twelveth consecutive</p>	<p>Aug 2011- April 2012</p>	<p>11 interns, 15 public school educators  220 children (unduplicated count; estimate) 15 parents</p>	<p>1. Online Internship evaluation forms completed by mentor teachers indicated that 100% of junior interns were recommended for admission to student teaching. (Goals 1, 3,5)  2. College faculty completed online survey forms and indicated belief that program goals were being met (100%). (Goals 1-6)  3. Online surveys indicate 100% percent of surveys returned by classroom teachers agree or strongly agree that the work of the interns and COPE is having a positive impact on student learning. 100% of college faculty and 90% of interns</p>
--	---	---	-----------------------------	---	--

	<p>educational theory and the wisdom of practice.  Rationale: Candidates who understand the connection between theory and practice are more likely to implement research based practices and prepare 21st century learners. 4. To assist in the professional development of 21st century educators.  Rationale: This is aligned with the goals of Future Ready Students. 5. To improve an elementary school through the development of better-prepared educators who contribute to a school culture focused on learning outcomes.  Rationale: This is consistent with the aims of the school improvement</p>	<p>year of collaboration)</p>			<p>concurrent; 10% (n=1) neutral. (Goal 6)</p> <p>4. Application for Target grant successful (spring 2010)</p> <p>5. Informal assessments indicate Math Night, Zoo trip and Science Day were successful.</p>
--	--	-------------------------------	--	--	--

	team. 6. To produce measurable improvements in classroom learning for all students who contribute to a school culture focused on learning.				
North Rowan Elementary; Hanford Dole(Rowan Salisbury)	1.To operate a Family Book Club Rationale: Parental involvement in reading is likely to increase likelihood of reading in the home.	1. College students participated in Family Book Club event (2 events) (Fifth consecutive year of collaboration)	March 16, 2011 - March 25,2011	10 interns, 140 children, 90 parents	1. Informal assessments indicate strong support for club activities.
Iredell-Statesville Schools	1. To establish a Visual and Performing Arts Early College High School in collaboration with Mitchell Community College (MCC), Catawba College and the Iredell Statesville Schools (ISS) Rationale: The purpose of this partnership is to provide support and encouragement	Five Catawba faculty from the Theatre and Music Departments collaborated with stakeholders from ISS (2) and MCC (2)to further develop the New Schools Project. As a result several educational opportunities for the inaugural classes of the Iredell-Statesville Visual and Performing Arts High School (VPAC) approved by the NC State Board of Education under authority of the Innovative Education Initiatives Act were developed. Two	Aug 2010-April 2011	173 public school students, 6 College faculty, 37 ISS educators, 2 MCC educators	The partnerships between and among Iredell-Statesville Schools, Mitchell Community College and Catawba College were strengthened and the VPAC operated as a functioning New School. From its initial handful of students, the VPAC students have grown to number 176

	<p>to prospective first generation college graduates in a community where higher education is perceived to be inaccessible. The perception may be grounded in economic, social, or racial factors, or drawn from suspicions about higher education changing people in a negative way. The target group includes students with clear creative/artistic abilities, who may or may not be entirely at home in the regular high school setting.</p>	<p>Catawba Professors traveled to VPAC to serve as guest artist/educators in Open Houses (March/April/May). These sessions impacted approximately 100 students, many of whom would be first generation college students. One Catawba Professor is slated to teach the Children's Theatre class June 1-4 at Statesville HS. The intent is to challenge 9 students to consider the similarities/differences between Creative Dramatics, Children's Theatre (by children, for children) and Theatre for Youth (by adults, for youth) as well as to participate in some experiential learning exercises in creating children's theatre. VPAC students traveled to a theatre performance at Catawba College which were augmented by lecture/demonstration sessions with performers, directors, designers, technicians, and administrators. The premise of these sessions is for potential first</p>			<p>total for Spring 2011. There are 169 VPAC students enrolled in curriculum courses at MCC. VPAC students received college level instruction for several of their high school sessions to begin introducing concepts in theatre. "Edusession" held - VPAC students experienced live theatre production and behind-the-scenes on site development of Catawba's theatre production of Hello Dolly.</p>
--	---	--	--	--	---

		<p>generation students to be introduced to the four-year institution initially in a very fun and non-threatening learning atmosphere. They arrived on campus in an Iredell County school bus, enjoyed dinner in the Catawba dining hall accompanied by current Catawba theatre students, met a professor, who discussed directing the musical and its particular theatrical attributes, saw the performance, and had a Q&amp;A session with performers afterwards. Students seem to acclimate quickly and with great enthusiasm to these non-traditional learning experiences, and to articulate their growing ease and excitement over the possibility of earning a four-year degree. This is the fourth consecutive year of collaboration. As created, the early college process includes six years total commitment by participating students to earn a high school diploma plus community college associates degree. VPAC is on target to</p>			
--	--	---	--	--	--

		graduate a few students in the fifth year, with each academic graduating class being larger than the year before. Catawba will discover whether the current educational efforts are successful once a full matriculation cycle has concluded.			
Rowan Salisbury Schools	To provide support for schools through service, including professional development. Rationale: community involvement is mutually beneficial; pooling resources is wise, especially in financially difficult times.	Outreach Catawba: Faculty Involvement with the Public Schools. Faculty involvement included: Sponsorship of NCCTM regional contest, 130 students, serving on school committees (RSS Closing the Achievement Gap, RSS TOY, Overton School Improvement), judging science fairs, volunteering in Special Olympics, hosting an Envirothon, judging band competitions, and Wind Ensemble performances at 3 NC high schools. (Thirteenth consecutive year of record keeping.) Educators' dinner. Speaker Lisa Wear of Horizons Unlimited Presentation by NC TOY Jessica Facciolini (Fifth consecutive year of NCTOY	<ul style="list-style-type: none"> <li>• Aug 2010 - May 2011</li> <li>• January 2011 – May 2011</li> <li>• February 24, 2011</li> <li>• July 11-16, 2010, with follow up meetings 9/11 , 2/19/11, and 3/19/11</li> <li>• March 29-30, 2011 (middle,high school)</li> <li>• Fall, Spring -April 1 March 25</li> </ul>	34 college faculty 32 at Ed dinner 120 attendants at TOY 52 girls 302 (Envirothon) 185 (grades 3-5) 160 182	81% of respondents to the Faculty Survey of Involvement with the Public Schools (34 of 42) indicated significant involvement with public education, including 100% of Education faculty. Informal assesments indicate lectures, workshops and presentations are well received. Similar events will be planned for the 2011-12 academic year.

		<p>presentations)  Catawba Conservation  Camp: Girls Gaining  Ground in Science  (summer science  experience for middle  school girls). **B. Brief Summary of faculty service to the public schools.**

The public schools provide Catawba with many students, and many of the children of the faculty attend our public schools. Many faculty members are graduates of the North Carolina public schools. Therefore, it is not surprising that College faculty were deeply involved with area public schools. Evidence for faculty involvement is documented through Outreach Catawba: Survey of Faculty Involvement with the Public Schools. Surveys were sent to the 72 full-time faculty with a response rate of 58% (42 of 72). Of the respondents, 81% (34 of 42) indicated significant involvement with public education, including 100% of Education faculty. Education faculty used resources from a previous SCALE grant to lead candidates in tutoring experiences in reading with elementary students and with disabled students in pre-schools. An Education faculty member served on the Rowan-Salisbury's Teacher of the Year Selection Committee. An Educators' Dinner allowed public school personnel, Education faculty and students to discuss educational issues; these dinners are organized in part by volunteer efforts by the faculty. Arts and Sciences faculty freely participated in a variety of interactions, including providing classroom presentations, conducting workshops, judging contests, helping with field days, tutoring, and hosting camps. A music professor provided assistance to area concert and marching bands and judged band competitions; the Wind Ensemble performed at three public high schools. The Department of Mathematics continued to sponsor a state level NCCTM mathematics contest for middle and high school students; more than 130 students attended. Theatre Arts faculty continued assisting a public performing arts program in the Iredell Statesville Schools and took College students to perform in area schools. An Academy for Science and Mathematics operated for the

fourth year at Salisbury High School, and the college has secured scholarships to Catawba College available to the 2011 graduating class. Faculty from Physical Education and Psychology coordinated efforts for Special Olympics. Science faculty were involved with the public schools, including the presentation of science shows and the judging of science fairs. Science and Education faculty taught in the Catawba Conservation Camp, a summer experience in science for middle school girls. The Center for the Environment sponsored an Enviro-thon and hosted a number of school tour groups. As all of these volunteer efforts make clear, Catawba College is strongly committed to North Carolina's public schools.

**C. Brief description of unit/institutional programs designed to support beginning teachers.**

The Department of Teacher Education has an ILT agreement with the Rowan-Salisbury Schools by which College faculty members make professional services available to beginning teachers. Professional development opportunities included a presentation by the North Carolina Teacher of the Year as well as North Carolina State Board of Education Attorney Katie Cornetto. Further efforts included an "Educators' Dinner" sponsored by the Lilly Center for Vocation and Values and often attended by beginning teachers. Conversations with prospective and career educators allowed beginning teachers to gain and share insight into the values and issues of the profession. More informal opportunities to support beginning teachers included electronic mail correspondence and phone calls between departmental faculty and former students regarding their novice teacher roles.

**D. Brief description of unit/institutional efforts to serve lateral entry teachers.**

The Dean of the Goodman School of Education met with the Director of the (area) RALC in 2008-2009 and updated the list of courses available for lateral entry teachers (new courses were developed as a result of the recent restructuring of programs). The college continued to offer courses for lateral entry teachers, primarily late afternoon classes in teaching methods. Reduced tuition was available through Catawba's post-baccalaureate teacher licensure program.

**E. Brief description of unit/institutional programs designed to support career teachers.**

Supporting the continuum of professional development and learning for career teachers is important to Catawba College. The College supports only one area of graduate study, programs that serve experienced teachers. Further illustrating its commitment to career

teachers, the College offers the Graduate Program with tuition comparable to state institutions. Career teachers serve in a variety of advisory capacities, serving on the Graduate Advisory Committee, the undergraduate Teacher Education Council, and Catawba-Overton Partnership for Excellence Advisory Committee. Career teachers attended a presentation by NC State Board of Education attorney Katie Cornetto. Education faculty taught demonstration lessons in a partnership school. The College-sponsored Educators' Dinners provide additional support and opportunities for discussion regarding current issues and trends. Catawba's graduate students, who are all licensed teachers, are given unique opportunities to challenge themselves through the planning and implementation of projects with the support and guidance of Catawba's graduate faculty. During 2010-2011 career teachers, who were pursuing certification by the National Board for Professional Teaching Standards, conferred with professors and utilized the College's Curriculum Materials Center in preparation for their assessments.

**F. Brief description of unit/institutional efforts to assist low-performing, at-risk, and/or priority schools.**

For 12 years the College has engaged in a partnership program with Overton Elementary School known as the Catawba-Overton Partnership for Excellence (COPE). Discussions began 13 years ago when the school was in jeopardy of being designated as low-performing. Hence, this collaboration was initiated because of the College's desire to assist the school, which has a majority of students who are economically disadvantaged as well as a significant number of special needs and exceptional students. During 2010-2011, tutorials were continued to address the needs of low performing students in reading. Special support was given through participation in special events such as Science Day. Although formal participation in a three-year SCALE (Student Coalition for Action in Literacy Education) grant ended, materials from the grant continue to support tutoring projects. Student teachers were also placed at two schools designated as priority schools.

**G. Brief description of unit/institutional efforts to promote SBE priorities.**

In 2009-2010 the College began full implementation of restructured undergraduate licensure program, all of which were developed in light of the goals of Future Ready Students and a new set of North Carolina Professional Teaching Standards. In 2010-2011 junior level professional courses, which addressed the need for 21st Century Professionals (quality teachers) were offered for the second year. Student teachers enrolled in a Professional Leadership Seminar piloted digital professional portfolios with Evidences 3,4,5 as a pilot study for the expected statewide pilot submission in May 2012. The priority to produce globally competitive students (high student performance) was addressed through tutoring projects in reading and other projects associated with the COPE partnership. The College partnered with the Rowan Salisbury Schools and created

plans for a summer institute for K-8 science teachers to be held in 2011 (quality teachers).

**H. Special Emphasis for the Year of Record (which of the above [if any] did you put special emphasis on from the preceding year).**

The mission of the Department of Teacher Education at Catawba College is to prepare reflective teachers who possess the professional knowledge, skills, and dispositions necessary for effectively teaching students in a diverse and global society. A special emphasis was placed for the fourth year on the priority of 21st Century professionals, specifically with regard to “preparation in the interconnectedness of the world with knowledge and skills, including language study.” All Catawba College graduates are required to demonstrate intermediate foreign language proficiency, and so most students engage in four semesters of study. The Shirley Ritchie Academy for Teaching continued its fourth full year of program operations. The fourth cohort of Martha K. West Teaching Scholars arrived on campus; each scholar received a scholarship worth \$15,000 a year for North Carolina residents (\$13,000 for out of state residents.) The scholars attended a variety of programs, including a presentation by North Carolina Teacher of the Year Jennifer Falciolini. The first cohort graduated May 2011 and will enter the teaching field next fall.

**Supplemental Information (Optional)**

**I. Brief description of unit/institutional special efforts to improve NTE/Praxis scores.**

For several years the college has enjoyed a 100% pass rate on PRAXIS II for program completers. While this success has been made possible in part by the state mandated requirement of PRAXIS I as a requirement for admission, the department has nevertheless made specific efforts, targeting students at various stages in the Teacher Education Program. The department provided test preparation materials for PRAXIS I and II in the Curriculum Materials Center. Individualized tutoring and guidance for candidates were provided by Teacher Education faculty as well as by paid tutors; practice tests for PRAXIS I and II are also available through the college’s subscription to NC Live. Students were made aware of these opportunities through announcements in classes and in meetings of the Student North Carolina Association of Educators. In order to prepare Elementary Education students for PRAXIS II, faculty presented small group workshops and provided individualized tutoring.

**J. Brief description of unit/institutional special efforts to recruit students into professional education programs leading to licensure.**

Catawba College faculty collaborated with educators from the Rowan-Salisbury Schools and engaged in a number of recruitment activities throughout 2010-2011. The most significant activity was the continuation of the Martha K. West Teaching Scholars, a program which provides twenty scholarships per year of up to \$15,000 each to prospective teachers. The fourth cohort of West Scholars arrived in fall 2010, and the first cohort graduated in May 2011. These scholarships, funded in part by a generous gift from an anonymous donor, demonstrate the deep commitment the College has to the preparation of future teachers. The College again hosted a presentation by the North Carolina Teacher of the Year to speak before prospective teachers. In addition to the regular recruitment events such as meetings with incoming freshmen and participation in college recruitment fairs, Catawba Teacher Education faculty attended campus events such as periodic "Open Houses," which are special visitation days at Catawba targeting prospective students. Peer recruitment efforts were utilized with current teacher candidates who were encouraged to share their experiences with other students and by informal invitations to Student North Carolina Association of Educators meetings, and by serving as campus guides in the Alpha program.

**K. Brief description of unit/institutional special efforts to encourage minority students to pursue teacher licensure.**

The department has operated under the assumption that several factors will encourage minority students to pursue teacher licensure. Among these are the need to interact with diverse faculty, the need for support for minority candidates, and the need for opportunities to increase multicultural understandings within the majority population. The need to interact with diverse faculty was addressed in part when in fall 2008 an African-American female was employed as a full-time faculty member to work in the birth-kindergarten program; during 2009-2010 another African-American female was employed as an adjunct instructor. These actions allowed the small Teacher Education Program at Catawba to attain its greatest diversity to date in the Teacher Education faculty. Multiculturalism is a significant component of the Learning Environments and Professional Practice class taken by all juniors in the day program. Candidates listened to a diverse set of speakers, including those from African-American, Caucasian, and Hispanic backgrounds. During the 2010-2011 eleven minorities were admitted and enrolled in teacher education programs; this contrasts with four minorities in 2009-2010, and three in both 2008-2009 and 2007-2008. Ten percent of the students admitted and enrolled in teacher education programs are minorities, the highest since the inception of the IHE Performance Report.

**L. Other (if applicable): Brief description of new initiatives (if any) not detailed previously in the narrative section.**

In 2010-2011, Catawba College continued a number of initiatives designed to boost enrollment and raise quality in the teacher education programs which were developed in the 2006-2007 academic year. As a result of these initiatives, the College graduated its fourth cohort of student teachers in the Birth-Kindergarten program. This program was designed as a “2+2” program in cooperation with Rowan-Cabarrus Community College; students attend evening classes as part of the School of Graduate and Evening Studies. In January 2010, this program was expanded to include classes taught on the campus of Davidson Community College. The Shirley Ritchie Peeler Academy for Teaching entered its fourth full year of operations. This academy sponsored events in collaboration with public school educators for the advancement of teaching. The Academy Director oversees the Martha K. West Teaching Scholars; each year twenty scholarships of \$13,000 each (\$15,000 for in-state residents) are offered to prospective teachers. Some of these students will pursue careers as science or math teachers. Blueprints to establish new licensure programs in Spanish Education and Special Education were also submitted to NCDPI in spring 2011.

**II. CHARACTERISTICS OF STUDENTS**

Exceptional Children (K-12)	0	0

Vocational Education (7-12)	0	0
Special Service Personnel (K-12)	0	0
Other	0	0
Total	0	0
Comment or Explanation		
With the advent of the RALC, lateral entry teachers have been encouraged to seek plans of study through that agency. In recent years, the number of newly-hired lateral entry teachers in area schools has decreased dramatically. Although Catawba College has served lateral entry teachers in the past, in 2010-2011 no lateral entry teachers chose to take courses here.
