

CURRICULUM VITA

JENNIFER E. KLEBAUR, Ph.D.

3612 Armitage Dr.
Charlotte, NC 28269
707.430.7110
jekleaur@gmail.com

Teaching Experience

Adjunct Instructor

Central Piedmont Community College, Charlotte, NC

August 2005 to Present

PSY 150 - General Psychology (taught online and face to face)

This course provides an overview of the scientific study of human behavior. Topics include history, methodology, biopsychology, sensation, perception, learning, motivation, cognition, abnormal behavior, personality theory, social psychology, and other relevant topics. Upon completion, students should be able to demonstrate a basic knowledge of the science of psychology. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.

PSY 241- Developmental Psychology (taught online and face to face)

This course provides an overview of the scientific study of human behavior. Topics include history, methodology, biopsychology, sensation, perception, learning, motivation, cognition, abnormal behavior, personality theory, social psychology, and other relevant topics. Upon completion, students should be able to demonstrate a basic knowledge of the science of psychology. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.

PSY 281- Abnormal Psychology (taught face to face)

This course provides an examination of the various psychological disorders, as well as theoretical, clinical, and experimental perspectives of the study of psychopathology. Emphasis is placed on terminology, classification, etiology, assessment, and treatment of the major disorders. Upon completion, students should be able to distinguish between normal and abnormal behavior patterns as well as demonstrate knowledge of etiology, symptoms, and therapeutic techniques. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.

Visiting Assistant Professor

Adjunct Instructor

Catawba College, Salisbury, NC

August 2017 to present

Spring 2017

PSYC 1110 –General Psychology (taught face to face)

A study in the major perspectives of psychology with an emphasis on the nature and behavior of people and an examination of selected topics in the discipline.

PSYC 2345 – Human Development (taught hybrid format)

A survey of the important methods, theories, themes, issues and research findings in the field of lifespan developmental psychology specifically for declared Athletic Training, Therapeutic Recreation, and Nursing majors.

PSYC 3530 – Fundamentals of Cognitive Processes (taught face to face)

A survey of theory and research related to human cognitive functioning. Lecture and laboratory.

PSYC 3480 – Abnormal Psychology (taught face to face)

A study of the classification, etiology, and treatment of personality disorganization

Adjunct Instructor

Fall, 2005

Johnson and Wales University, Charlotte, NC

PSYC 1001 – Introductory Psychology (taught face to face)

Introductory Psychology is the scientific study of behavior and mental processes. Ethical application of the scientific method is used to examine nervous system structures and functions, learning, memory, intelligence and states of consciousness.

Adjunct Instructor

Fall, 2002 to Winter, 2004

Washtenaw Community College, Ann Arbor, MI

PSY 100 – Introduction to Psychology (taught face to face)

This class provides an introduction to the scientific study of psychology - the study of mental processes and behavior. This is a survey course including such topics as psychological development, learning, thinking, motivation, emotion, perception, intelligence, aptitudes and personality. Basic principles and their practical applications are discussed.

Adjunct Instructor

Fall, 2001

University of Michigan, Ann Arbor, MI

PSY 436 - Drugs of Abuse, Brain and Behavior (taught face to face)

This course examines the use of psychoactive drugs, using this topic to explore human behavior: from the interactions between chemicals and neurons to the psychological and physiological effects on the individual to the impact on society; we will touch on topics relating to biology, pharmacology, neuroscience, chemistry, anthropology, history, law, sociology, and political science. The effects of psychoactive drug use on the brain and on behavior will help us to understand human behavior in a biological context; the effects of psychoactive drug use on society will help us to understand the behavior of social and political groups and how they influence the individual.

Guest Instructor

Spring, 1998

University of Kentucky, Lexington, KY

PSY 456 - Behavioral Neuroscience (taught face to face)

An intensive investigation of the neural basis of behavior using an integrated lecture and laboratory format. Principles of neuroanatomy, neurophysiology and neuropharmacology are applied to behavioral processes such as perception, movement, learning, motivation and emotion.

Teaching Assistant

Various Semesters, 1991 to 1996

University of Kentucky, Lexington, KY

PSY 100 – Introduction to Psychology (taught face to face)

An introduction to the study of behavior covering theories, methods and findings of research in major areas of psychology. Topics covered will include the biological foundations of behavior; learning, perception, motivation, personality; developmental, abnormal, and social behavior; and methods of assessment.

PSY 215 – Experimental Psychology (taught face to face)

A study of the application of scientific methods to psychological research. Special emphasis is placed on the critical evaluation of contemporary research in experimental psychology. Particular attention is focused on the design, execution, and written report of laboratory research.

Research Experience

Research Fellow Department of Psychology University of Michigan, Ann Arbor, MI	Fall, 1999 to Fall, 2001
Kentucky Research Challenge Trust Fellow University of Kentucky, Lexington, KY	Fall, 1998 to Summer, 1999
Research Assistant Department of Behavioral Sciences University of Kentucky College of Medicine, Lexington KY	Fall, 1997 to Summer, 1998
Department of Psychology University of Kentucky, Lexington, KY	Spring, 1997 to Summer, 1997
Department of Psychology University of Kentucky, Lexington, KY	Spring, 1996 to Summer, 1996
Department of Psychology University of Kentucky, Lexington, KY	Summer, 1994 to Spring, 1995

Grants

The effects of amphetamine and novelty on Arc and Homer mRNA expression
UMSARC and Small Grants program, University of Michigan, 2000

Education

Substance Abuse Certification Program Central Piedmont Community College, Charlotte, NC	2016
Ph.D., Experimental Psychology (Cognitive, Neural and Developmental program) University of Kentucky, Lexington, KY Dissertation: <u>The Role of Novelty in Disruption of Amphetamine Self-administration</u>	1999
M.S., Experimental Psychology (Behavioral & Neural Science program) University of Kentucky, Lexington, KY Thesis: <u>Group Differences in Novelty Seeking on the Playground Maze Predicts Amphetamine-induced Locomotor Activity</u>	1996
B.A., Psychology and Spanish, magna cum laude Auburn University, Auburn, Alabama	1991

Certifications

Certified Substance Abuse Counselor (CSAC) – Intern NCSAPPB	July, 2016
Part-time Instructor Certification Course, Topic: Student Engagement Central Piedmont Community College, Charlotte, NC	Summer 2013
Part-time Instructor Certification Course, Topic: Learning Outcomes Central Piedmont Community College, Charlotte, NC	Summer 2008

Educational Training

Blackboard 101: Introducing New Pathways to Learning
Blackboard 102: Assessing eLearners
Clery Act and Crime Reporting
Online Pedagogy
How to Engage Online Learners

Professional Membership and Honors

Psi Beta, national chapter 2012 to present
CPCC chapter, Faculty Co-advisor (2010 to 2014)

Kentucky Research Challenge Trust Fund Fellowship, August 1998 to July 1999
University of Kentucky, Lexington, KY

Center for Evolution, Ecology and Behavior Travel Award, May, 1999
University of Kentucky, Lexington, KY

Sigma Xi, University of Kentucky chapter
University of Kentucky, Lexington, KY
Sigma Xi Travel Award winner, 1998

Society for Neuroscience, national chapter 1993 - 2001

Society for Neuroscience, University of Kentucky chapter
University of Kentucky, Lexington, KY
Spring Neuroscience Day Poster Award Winner, 1997
Student Representative, Fall 1995 to Spring 1996

Midwestern Psychological Association 1993 - 1999

Psi Chi
Auburn University, Auburn, AL

Sigma Delta Pi
Auburn University, Auburn, AL
