

CATAWBA STRATEGIC FOCUS PLAN – ENDORSED BY BOARD OF TRUSTEES – 10/26/2019

The Catawba Strategic Focus Plan provides a three year set of strategic investments for enrollment growth and financial sustainability. This plan was undertaken and developed in order to assist Catawba in the following ways:

- To know who we are and where we are by understanding current student populations and how we serve them, as well as by understanding developing trends in student populations and how we may respond to those developments;
- To examine what opportunities, programs, and initiatives can be pursued as a function of strategic decisions as well as donor support;
- To embrace/grapple with 21st century learning (including technology and experiential opportunities) while being willing and able to experiment and providing time for novel approaches to bear fruit;
- To be honest and authentic about what we will be able to offer and support with those faculty, students, and staff who are joining our community;
- To become more aligned in our direction, purpose, and priorities for the College while retaining our core values.

Our overall 3-Year Guiding Objectives:

- **Enhancing** our capacities to deliver our enduring Mission and Core Values;
- **Upholding** our commitments to access and individual development “from applicant to alumni”;
- **Enabling** our long term financial sustainability through enrollment growth; and
- **Undertaking** a feasibility study and **determining** if we should transition from Catawba College to Catawba University.

Our Key 3-Year Metrics:

- Enrolling 200 new day, transfer, graduate, and non-traditional students by 1/1/22.
- No budget deficit by 5/31/22.

The Strategic Focus elements on the following pages are color-coded:

Blue boxes reflect the main themes and objectives of our 3-year (2019-20, 2020-21, 2021-22) strategy.

Green boxes include items and tactics we believe at the present time will be used to accomplish the objectives.

Strategic Focus Overview Summary

Our overall 3-Year Guiding Objectives:

- Enhancing our capacities to deliver our enduring Mission and Core Values;
- Upholding our commitments to access and individual development “from applicant to alumni”;
- Enabling our long term financial sustainability through enrollment growth; and
- Undertaking a feasibility study and determining if we should transition from Catawba College to Catawba University.

A three year set of strategic investments for meeting our Guiding Objectives through:

Transformational Educational Experiences

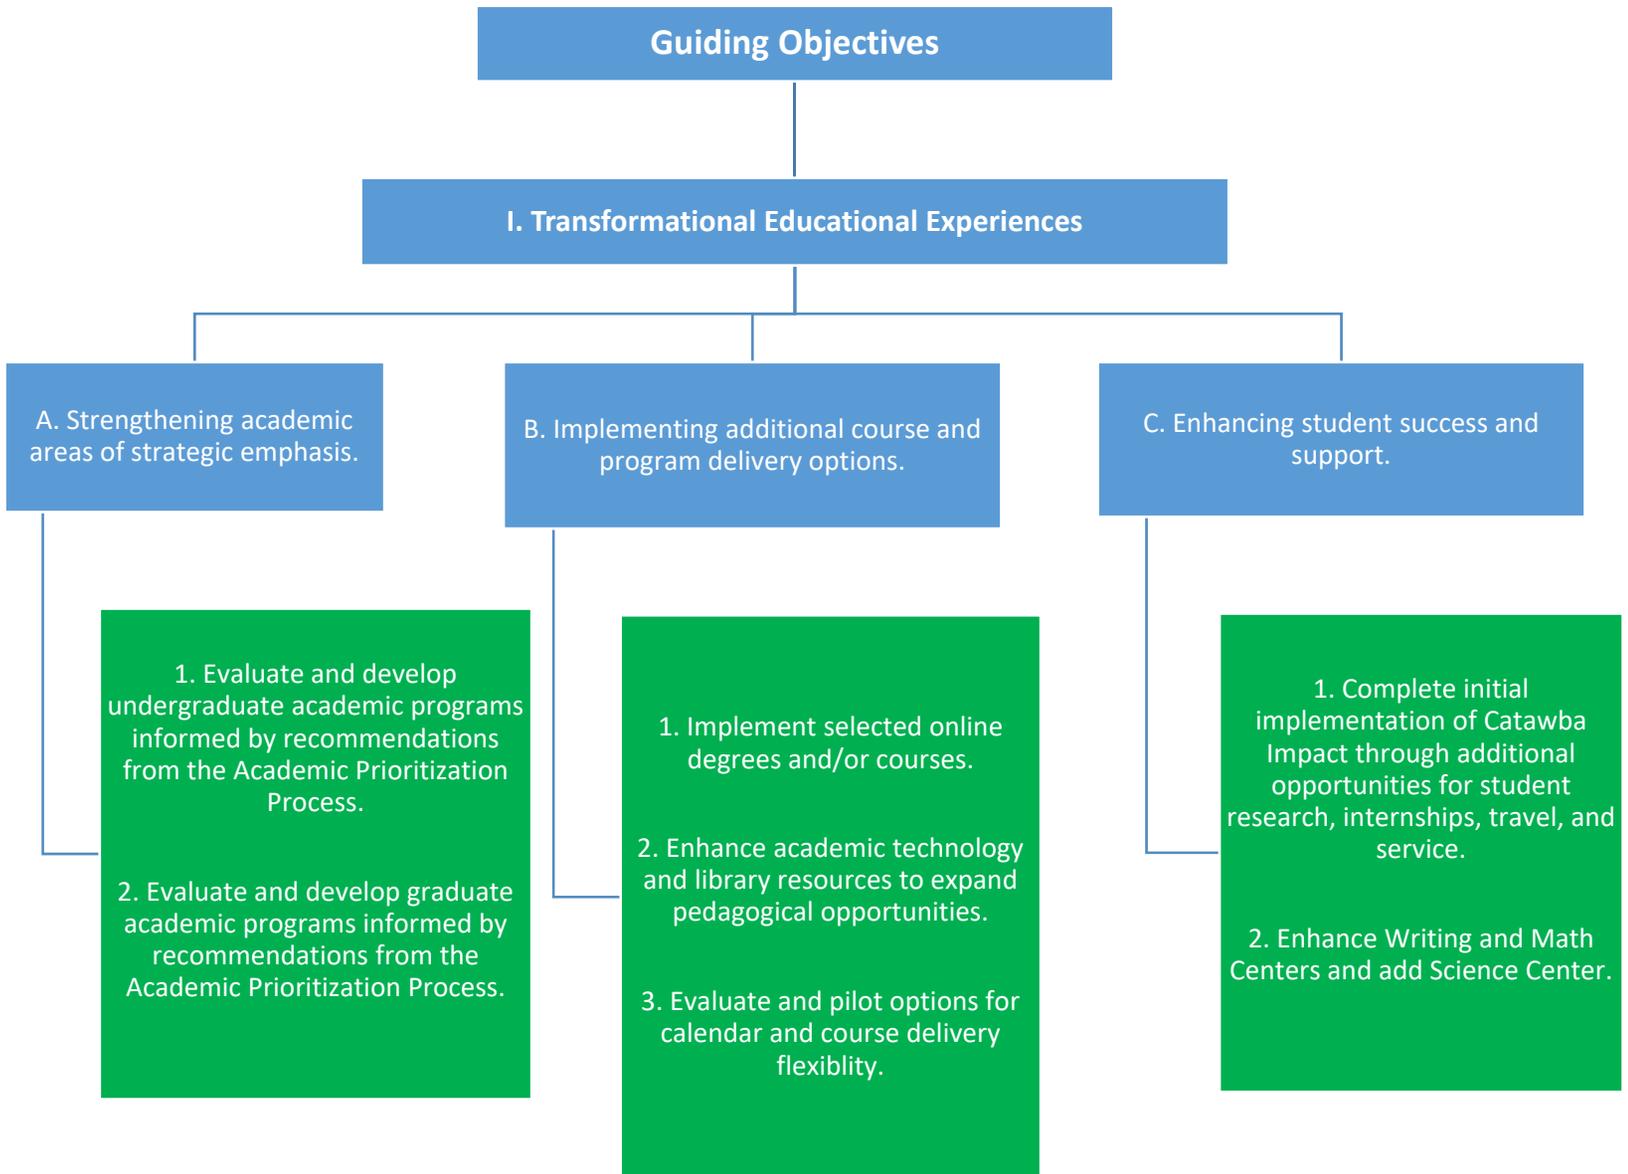

- Strengthening academic areas of strategic emphasis.
- Implementing additional course and program delivery options.
- Enhancing student success and support.

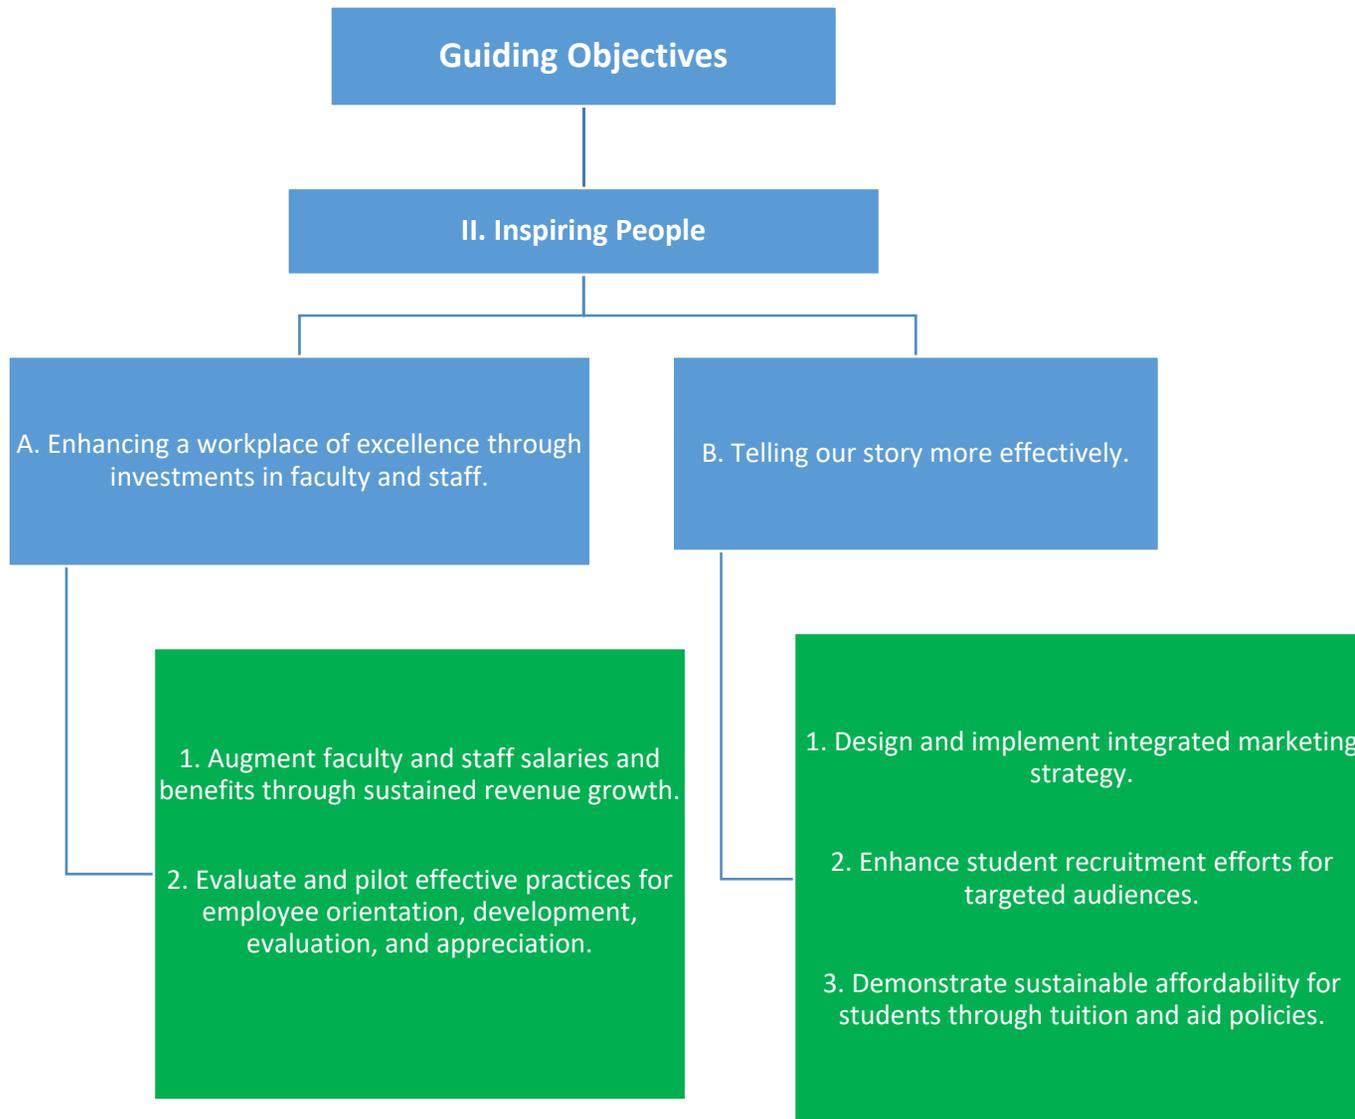

Inspiring People

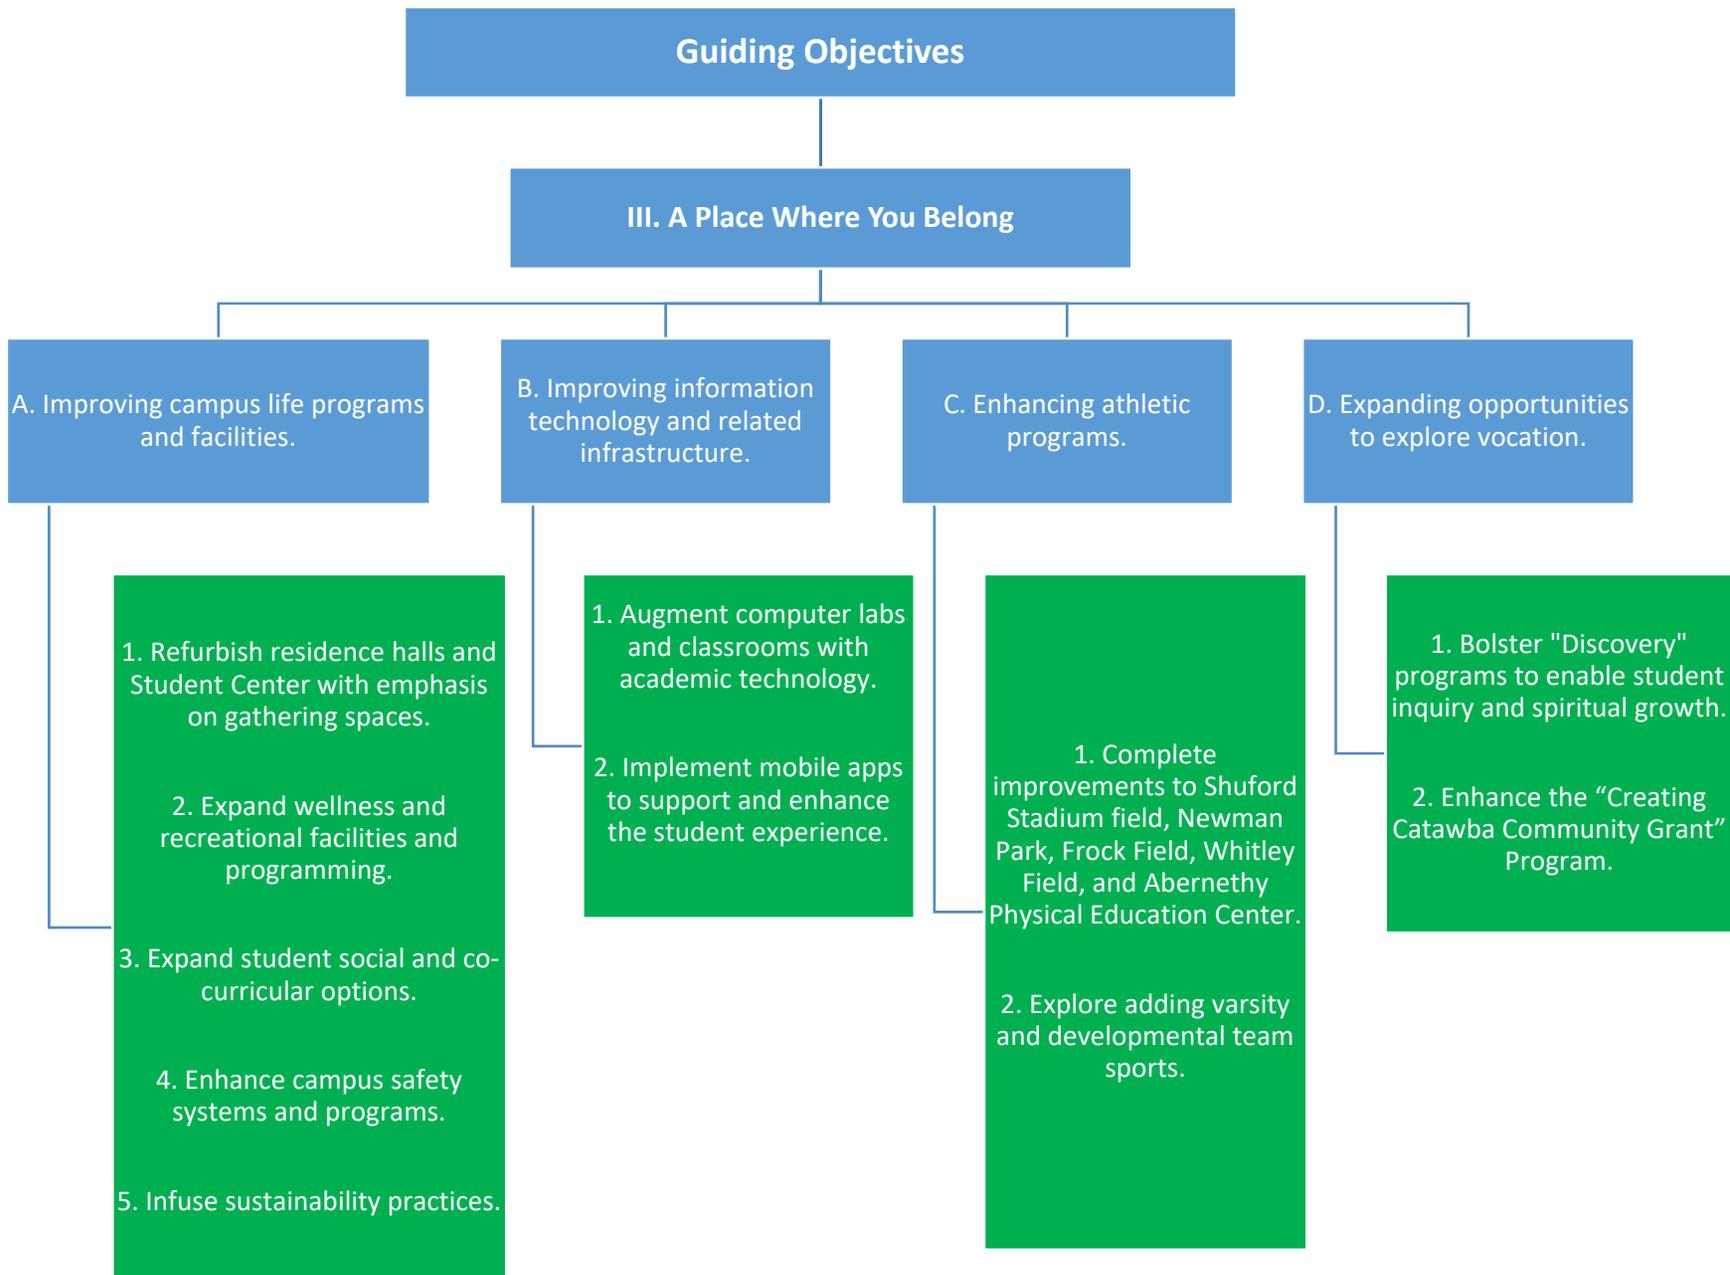

- Enhancing a workplace of excellence through investments in faculty and staff.
- Telling our story more effectively.

A Place Where You Belong

- Improving campus life programs and facilities.
- Improving information technology and related infrastructure.
- Enhancing athletic programs.
- Expanding opportunities to explore vocation.
