

*Springtime*  
in the Carolinas  
Wind Ensemble Tour 2010  
CATAWBA COLLEGE

*Greetings* from Catawba College.  
We're so very glad that you are joining us for a performance of Catawba's Wind Ensemble.

The Wind Ensemble is an important component of our Music program, allowing students valuable performance opportunities. Additionally, its size allows us to "go on the road" and expose a part of our Music program to dozens of potential students and their families.

Thanks to recent growth in our Music program, we have students from many diverse musical backgrounds now enrolled at Catawba. Some were very involved in their high schools with concert or marching bands, others sang in their school or church choirs, and still others wrote songs and perhaps played in garage bands. **While their musical talents and interests are varied, these students exhibit one common characteristic – they all love music and have chosen Catawba in large measure because it allows them to continue that love.**

While you enjoy today's performance, I hope you will realize how very much we at Catawba value our students as individuals, not merely as numbers or seat assignments. I also hope that you'll see that our faculty is dedicated to helping each student make the most of his/her college experience – *academically, socially and personally.*

Thanks for attending today's performance.  
We hope to see you on our campus in the near future.

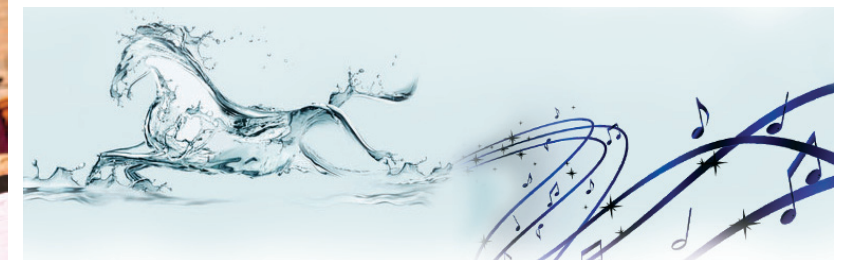

Sincerely,  
*W. Craig Turner*  
W. CRAIG TURNER  
President
